

Junior Software Engineer

Telfair Moka (Mauritius), Full Time

We're looking for Junior Software Engineers excited to learn and grow throughout the full development life cycle. You'll gain hands-on experience by understanding system and user needs, building modules, and improving software quality. If you're eager to develop your skills in agile environments and make a real impact, we want to hear from you. Ultimately, you'll contribute to delivering secure, high-quality applications across the globe.

Responsibilities:

- Get hands-on with impactful, scalable software used by thousands of people every day
- Team up with international developers and be part of building and releasing complex features
- Level up fast by diving into the full development process—from planning to deployment
- Be part of an energetic team that values curiosity, creativity, and proactiveness.
- Learn from experienced mentors thru code reviews and sharpen your skills in a positive feedback culture, empowering personal breakthroughs
- Stay up-to-date with the latest web development trends and technologies, actively seeking opportunities for professional growth

Requirements:

- We are looking for motivated individuals - with or without experience
- Strong English communication skills are a must
- Degree in Software Engineering or other relevant fields is an advantage but not required
- Familiarity with Java, C#, React, Angular or .NET is a plus
- Exceptional problem-solving abilities and time management skills
- You are open to collaborate with global clients and work in international teams
- You are an inspiring team member and have a go-minded spirit, "yes, we can..."

Compensation & Other Benefits:

- Awesome culture - passionate, driven and fun team
- Flexible Working Hours & Hybrid Work
- Excellent learning environment in an internationally fast growing company
- Competitive Salary & End of Year Bonus
- Health insurance coverage for your dependents (Non-working spouse and children under 25 years old, as long as they are not working themselves)
- Subsidized lunch, snacks, and unlimited tea/coffee
- Ability to grow, set roots and build a career
