Senior Software Engineer

Telfair Moka (Mauritius), Full Time

We're looking for Senior Software Engineers who are eager to lead and innovate across the full development life cycle. You'll get to shape software by gathering system and user needs, crafting powerful modules, and enhancing quality. If you're passionate about agile development and interested in making a real difference, we want to hear from you. Ultimately, you'll deliver secure, high-quality and impactful applications across the globe.

Responsibilities:

o   Make valuable contributions to scalable, business critical software solutions which are used by thousands of users daily

o   Prepare and release software components with international teams

o   Show initiative by planning and executing tasks through every phase of the software lifecycle

o   Be a key part of a quality-driven culture by engaging in code reviews

o   Possibility to lead small engineering teams

o   Stay up-to-date with the latest web development trends and technologies, actively seeking opportunities for professional growth

Requirements:

o   4+ Years of Software Engineering experience

o   Strong English communication skills are a must

o   Degree in Software Engineering or other relevant fields is an advantage but not required

o   Familarity with Java, C#, React, Angular or .NET is a plus

o   Exceptional problem-solving abilities and time management skills

o   You are open to collaborate with global clients and work in international teams

o   You are an inspiring team member and have a go-minded spirit, "yes, we can..."

Compensation & Other Benefits:

o   Awesome culture - passionate, driven and fun team

o   Flexible Working Hours & Hybrid Work

o   Excellent learning environment in an internationally fast growing company

o   Competitive Salary & End of Year Bonus

o   Health insurance coverage for your dependents (Non-working spouse and children under 25 years old, as long as they are not working themselves)

o   Subsidized lunch, snacks, and unlimited tea/coffee

o   Ability to grow, set roots and build a career
